Under his contract he has to have the line completed by the 1st of September. Railway men consider two months a sufficient length of time in which to do the work. Engineer Armstrong has been engaged for several days arranging the right of way for the track on this side of the river. Difficulty is being experienced in getting out of the flat with less than a two per cent grade.

—While Gilmore & Gowan's well boring machine was operating on the farm of Mr. June on the Sturgeon, last Monday, one of the men went down the well to remove an obstruction which was preventing the lowering of the tubing, and was almost overcome by gas which had accumulated at the bottom of the well. With difficulty he succeeded in retaining his hold on the lift rope and was brought to the surface in an exhausted condition. The well was only thirty feet deep and had at the time level feet of water in it. Unsuccessful attempts have since been made to disengage the well.

THE WATERWORKS PROPOSITION.

Messrs. John A. McDougall, T. W. Lines and Richard Seord met the town council at a special meeting Wednesday night and submitted to the council this draft of an agreement embodying the terms upon which they offer to install a waterworks system within the town.

Thos. Houston, who was formerly associated with Messrs. McDougall, Seord and Lines, has withdrawn.

The agreement is a lengthy document of some eleven pages. In brief its terms are as follows:

The promoters ask for a twenty years franchise for the exclusive privilege of operating a system of waterworks and to supply water to the inhabitants upon such streets "as the portions of the first part shall establish." The schedule of charges set to be greater than as set out in the following table:

The pumping capacity of the proposed system is to be 10,000 gallons a day, twenty four hours, in the maximum power to supply four hydrants at one time with one inch hoses, (throwing 100 gallons per minute 50 feet high. It has four hydrants at one time the town to have the right to demand that the stream be thrown more than fifty feet high. When the town has a population of 10,000 inhabitants the council may require the water supply to be increased in the proportion of 10,000 gallons for 10,000 inhabitants. The cost of putting in connection from street line to the residences served is to be borne by the householder. The town pays \$75 for each hydrant installed, also 90c per 1,000 gallons for water used for street sprinkling and flushing purposes. The town has the privilege of purchasing the waterworks system at any time on giving one years notice and paying for the plant at a price not less than the capital invested and 6 per cent interest from date of investment. In the event of disagreement the price to be fixed by arbitration. All the plant real and personal used by the company as part of their system is to be free from taxes. For each additional hydrant installed at the request of the town the town agrees to pay \$75 per annum, payable quarterly. In the event of an agreement being arrived at the company pay security for the commencement and completion of the system. The promoters agree from time to time to extend the mains of the water pipes when the revenue of 10 per cent of the cost of such extension will warrant them in so doing, provided no such extension is less than 200 feet. A meter being placed in the building of any consumer the company may charge in lieu of the rates set out in the schedule, \$10 per year for the meter and \$1.50 per 1,000 gallons of water consumed.

THE PUBLIC MARKET.

Patronage of the public market and town scales has been very light for the last two months, the season being too early for the marketing of produce, much of which is off the market.

During April there were 95 loads weighed, netting \$8,250. Of these 13 were hay, 14 coal and 77 hogs.

In May 85 loads were weighed, netting \$7,500. Of these 14 were hogs, 42 hay and green feed, and four were coal. The balance was miscellaneous.

Up to the 15th June 42 loads were weighed, receipts, \$3,350. 13 were hay,

THE FAIR.

The secretary reports that applications for entries for the fair are coming in very satisfactorily and a grand display is assured.

The visit of Col. Dent on July 2nd, to purchase horses for the British army is an attraction that was not down on the bills. Every farmer who has a horse to dispose of that comes within the classes required should make it a point to bring him in as anxious to sell or not. The object is to let Col. Dent see that we have the right kind of horses and lots of them in the district and that the sale is a mere matter of price. The constitution of the ranch horse is his great advantage. Our horses have the constitution and the training which enables them to be handled and used as horses just from the ranches cannot be. Only the best should be brought, but they should be brought in numbers.

The association furnishes straw and water for stock feed, but exhibitors will have to purchase hay and oats. Hay, oats and straw in large quantities are being stored on the grounds for the convenience of exhibitors.

Both new and old hay will be available.

WOOLEN MILL.

The word received by the town from Mr. Webster, who has under way the project for the establishment of a woollen mill here would indicate that Mr. Webster is ready for and means business.

His offer to the town regarding the establishment of the mill was subject to his receiving a site and exemption from taxation, and also on being able to purchase the plant he had in view. Mr. Webster writes that he has purchased the plant, so the only other contingency that exists to prevent the establishment of this industry here is the granting of the exemption and site. Nothing on this takes place next Monday and there is small doubt but that the proposition will meet the endorsement of the ratepayers.

Mr. Webster's project is to establish a mill employing at least fifteen hands.

GUN CLUB TOURNAMENT.

Following is the programme of the gun club tournament commencing on July 3rd, Wednesday at 9 o'clock sharp:

THE BILLOTTA MURDER TRIAL.

The trial of Bilotta at Calgary for the murder of his brother-in-law Karr, resulted in an acquittal. The tragedy occurred early last spring. Karr was married to a sister of Bilotta, and the pair were residing on a claim about seven miles from Innisfail. Bilotta was chiefly employed as a section hand on the C. P. R. There was hard feeling between Karr and Bilotta for reasons when were hinted at rather than stated, some of which could not be specified in print. On the occasion of the murder Bilotta walked out from Innisfail to Karr's place after dark. Called Karr, who had gone to bed, to the door and when Karr went outside shot and killed him. The body was left lying where it fell all night and Bilotta after informing his sister of what he had done slept in Karr's house the rest of the night, had breakfast in the morning and then gave himself up. His defence was that he had gone to Karr's place at the latter's request. That Karr had demanded money from him, and he refusing to give any Karr had attacked him with an axe and he shot Karr to protect himself. His own was of course the only evidence on that point, but it was accepted by the jury.

P. J. Nolan appeared for the defence and Jas. Short for the crown.

TURNIP LAKE.

At a meeting of the ratepayers of this district held last Saturday in the school house, George Cresswell was elected trustee by acclamation to act during the unexpired term of James McLaughlin, who has left the district.

Last Saturday a picnic was held in a grove, near a lake south of the school house, to raise money to help pay for the organ, purchased recently for church purposes, etc. The weather turned out bad and prevented an early start at the various sporting events. The Poplar lake football team put in an appearance, however, and a friendly game was played between them and the home team. The ground was heavy owing to fog grass and shooting on goal was also a little out of the question. Both teams worked hard to score, but when time was called the game was a draw. G. R. Mr. Edward Cummings of Poplar lake, refereed the game to the satisfaction of all. It is expected a return match will be played in the near future. Owing to the lateness of the evening and the severity of the rain, many pony and football races had to be given up. The crowd present at the picnic was large considering the weather. The ladies put in a bountiful supply of delicacies to which all present did justice.

WHITFORD.

Born—At Whitford, on June 1st, '01, to Mr. and Mrs. Archie Whitford, a daughter.

Fred Newton is erecting a new house on his farm by the river.

Andrew House, of Lobstick, reports that during a hunting excursion last winter he came upon a large buck deer dead, with its head, antlers and front parts firmly fastened in the ice, it having evidently broken through into a muskrat habitation and being unable to get out had frozen to death. It is strange that nothing had touched the carcass.

Gold miners, prospectors and land hunters are every-day visitors.

Merchants Horwick and Desjarlais are enlarging their respective places of business.

Simon Horwick, wife and little child, are visiting friends here, as is also the aged mother of Simon and John Horwick.

All stock is doing remarkably well this season owing to the excellent feed and scarcity of mosquitoes.

It is rumored that the Paken (Kewell) is a gusher and that it is lying dormant waiting for transportation facilities. A significant sign of this is that the machinery, tubing, etc., is left intact and that quite a tract of land has been optioned.

A jumping deer was seen here by our post master a few days ago on the east end of the lake.

Lawyers McCarthy, of Calgary, and Bown, of Edmonton, spent several days in the vicinity of Whitford. They evidently were making tests for gold in the Saskatchewan.

Justice Hamilton fined a couple of Russians one dollar each and costs for violation of the public schools' truancy act.

Census enumerators Stewart and Lang have completed their respective enumerations and are returning their rolls to commissioner Harrison, of Edmonton. Mr. Stewart has probably the largest one in area of the entire census.

An English settler of Beaver lake recently married a Russian girl and last summer the plaintive howling of the cattle told of the misery due to the unusual plague of mosquitoes, but this season there are no flies and every beast is looking sleek and plump.

There are no new developments in connection with the Battle lake murder case due to the discovery of a guilty party, and as to the identity of the murdered man the police are equally in the dark. As to the body itself at the time of discovery it was in such an advanced state of decomposition that a reliable description of personal appearance was quite impossible, and as to the clothing, it was not of such a distinctive character as to make recognition in any way certain. There are, however, certain small points which may be of value later on in fixing identity should evidence be forthcoming as to any person being missing about the time of the murder. The police are anxious for information from any persons who may have friends visiting this part of the country from whom they may not have heard within the last two or three months. Inquiries as to missing friends should be sent to the police at Wetaskiwin or to any police post.

Reported that the Great Falls and Canada railway has been sold to the Great Northern. This is the portion of the railway between Letbridge and Great Falls which is in the United States. It is not stated definitely whether the whole road has changed hands or not.

There was a large attendance of players and spectators, and the tournament resulted in a most gratifying success. CAMILLA PIC-NIC.

Camilia's annual picnic was held Wednesday. A bus load from Edmonton, including several of the football team, drove out. Sports of all kinds were held on the grounds, where there were a large number of people present.

A baseball match played between teams from Morinville and Riviere Qui Barre. Three innings were played, Morinville winning by six to four. The game was a good exhibition and keenly contested.

In football the Edmonton contingent were defeated by Camilla team, score 10 to 0. The following were the players: C. Jardine, N. Lander, L. Goodridge, J. A. Drysdale, P. E. Lessard, J. E. Ecker, P. Hies, Dewar, McAvoy, Bunn and Griesbach.

In a tug-of-war the single men defeated the married ones, for the first time in the history of Camilla's contests.

Several horse racing events were pulled off.

The "popular" competition between Messrs. Brousseau and Griesbach resulted in the former winning. Out of this contest some \$25 was netted for the church fund.

The picnic was held on the farm of A. McDonald, an ideal site for the outing.
